

Game Chair

Using the finest building and construction materials, Concordian boasts a quality-centered commitment in all aspects of the production process. Skilled artisans work their magic into every detail of your product. At Concordian, our products are inspected, at every stage of the production process. Using the latest techniques in statistical process control, Concordian measures quality using the same exacting standards that have been laid out by the ISO / QS community.

We are dedicated to manufacturing stylish, trouble free upholstered furniture designed to meet demanding standards of quality and fashion. And we are proud to be able to mark each piece "Made in Canada".

Designed from the ground up, the Concordian Entertainment Chair plugs right into your Home Theatre System or your Gaming System including XBox, PS2, GameCube and your home PC! Inspired by a game controller, Concordian Entertainment Seating adds depth, dimension and realism to your entertainment systems. Surround yourself in the finest entertainment chair made in the world today!

There is nothing like it! When bombs detonate, you'll feel the blast. When an F-18 soars, you'll experience the G-force. Feel every thunderbolt, and every car crash. You'll even feel the subtle percussion as bullets directionally ricochet past. A must have for any audio/game enthusiast! Surround yourself in the finest entertainment chair made in the world today!
